

# X Series

for interference Suppression  
and Across-The-Line, Class X2

## Feature

X series is self-healing flat style capacitor, which is wound with polypropylene film dielectric, flame retardant, plastic case and epoxy resin end seal. Following styles belong to this series:

S=Tinned copper clad steel wire radial leads.

P=UL 1015 or 1017 AWG#20~22 solid PVC insulation wire radial leads.

X series is especially designed for radio interference suppression and across-the-line capacitors in:

- (1) Business machine's appliance, such as typewriter, computer display and monitor.
- (2) Household appliance, such as mixer, fan, coffee grinder, audio and TV circuit.
- (3) Thyristor and triac appliance, such as dimmer, power supply.
